

Happy Sunday Community Friends:

The Village of Hales Corners and the surrounding communities enjoyed over two months of ice skating this winter season from December 24, 2017 - February 25, 2018, but due to the fluctuating weather of warm to cold it was time to start packing up for this year.

The liner and half of the small triangle braces remain frozen so we will need to return on another date to remove.

Special thanks to Friends of Hales Corners Park & Pool volunteers- Ted Shaw, Don Paulus, Scott Schenke and Nick Dagostino for their time and effort yesterday morning with breaking the Alyson Dudek International / Community Ice Rink down in Hales Corners Park.

Please see the attached pictures.

Also, a shout out and a big thank you to the Milwaukee County Parks Department for their help and assistance this winter season and year round.

The Friends and the Milwaukee County Parks Department are beginning our 16th year in partnership working together to make Hales Corners Park & Pool the very best it can be.

The proof is when one walks around the park and looks inside and outside of the pool house and pool. So please thank a County Park person when you see them around in our community. Tremendous progress been happening slowly, but surely.

Also, don't forget the Friends will gladly take your aluminum cans. This is one huge way for every single person in Hales Corners and the surrounding communities to help the Friends Mission which is to keep Hales Corners Park & Pool open and operating and to continue to develop a recreational environment for residents in the Village and surrounding communities, to enjoy.

My goal for the medium term for the Friends is to get every resident in Hales Corners to give their empty aluminum cans to the Friends so we have to put up a 40 yard community dumpster to collect them all.

Sincerely
Donald G. Schwartz, President
Friends of Hales Corners Park & Pool
P.O. Box 7
